

Dear Students, Supporters and Friends,

Hoping your summer is winding up on a good, restful and refreshing note (especially with the refreshing Dallas weather!).

As we approach the Month of Elul and preparations for a New Year, I am very excited to inform you of a wonderful new learning opportunity available to you, the DATA Night Kollel. This program began a few months ago on a smaller scale, and is now being expanded to enable many more of you to join, and avail yourselves of the incredible opportunity to study one-on-one with a Torah scholar. Many of our wonderful local Rebe'im are participating in the Night Kollel. In addition, I am very excited to inform you that this is your opportunity to study with your new Kollel members. Rabbi Hurwitz, assistant to Rosh Kollel and the 4 new Kollel members will be participating in this program for the Month of Elul, and are looking forward to meeting and studying with you.

Anyone interested in establishing a study partner with one of our Rabe'im should contact [Rabbi Ranaan Broderick](#), Chairman of the Night Kollel. He is working hard to ensure that all interested will be set up with the best match. Please discuss with him how many nights per week you would like to commit to studying.

All are encouraged to drop in and study in the Night Kollel, which will take place at Ohr Hatorah after Maariv service, for one hour, in the Month of Elul. The more learning together, the stronger the Kol Torah, the powerful voice of Torah which will elevate our city and community to new levels of Kedusha, and will be a wonderful way to prepare ourselves for the Yomim Noraim soon coming upon us.

Best wishes,

**Rabbi Yerachmiel D. Fried**

**Rosh Kollel / Dean of DATA**

**Dallas Area Torah Association Community Kollel**

**5840 Forest Ln. Dallas, TX 75230**
